

MetaBase guide (Data Visualization Software)

How to login:

Step 1: Open the following link (the second word is the name of the database of your group)

Group 1:

url: <https://iot-zeiss2022-1.azurewebsites.net>

database name: iot_db_01

Group 2:

url: <https://iot-zeiss2022-2.azurewebsites.net>

database name: iot_db_02

Group 3:

url: <https://iot-zeiss2022-3.azurewebsites.net>

database name: iot_db_03

Group 4:

url: <https://iot-zeiss2022-4.azurewebsites.net>

database name: iot_db_04

Group 5:

url: <https://iot-zeiss2022-5.azurewebsites.net>

database name: iot_db_05

Group 6:

url: <https://iot-zeiss2022-6.azurewebsites.net>

database name: iot_db_06

Group 7:

url: <https://iot-zeiss2022-7.azurewebsites.net>

database name: iot_db_07

Group 8:

url: <https://iot-zeiss2022-8.azurewebsites.net>

database name: iot_db_08

Group 9:

url: <https://iot-zeiss2022-9.azurewebsites.net>

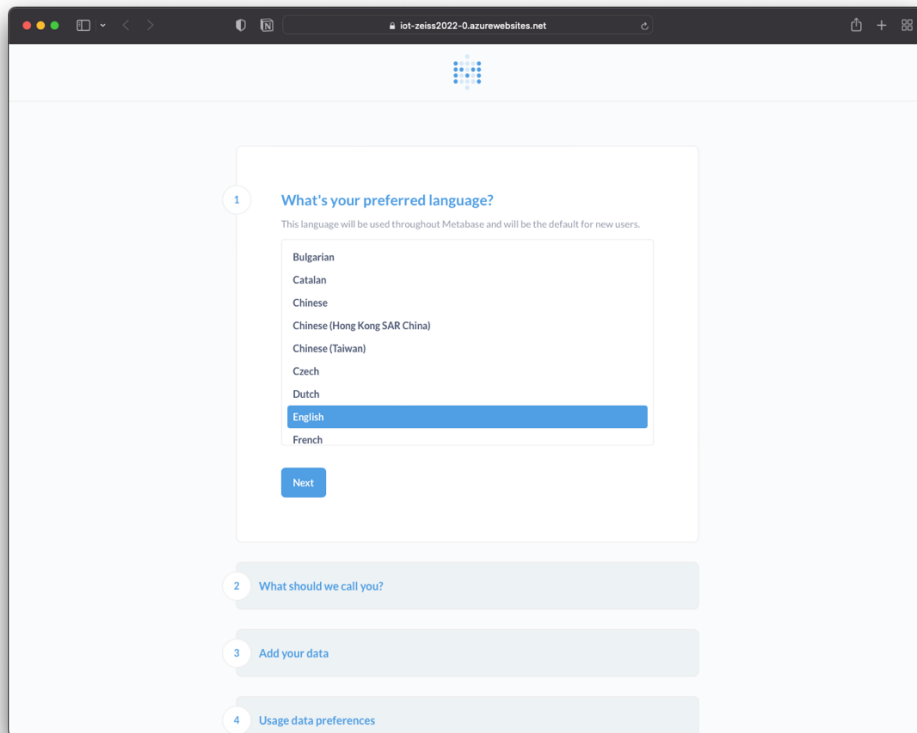

database name: iot_db_09

Group 10:

url: <https://iot-zeiss2022-10.azurewebsites.net>

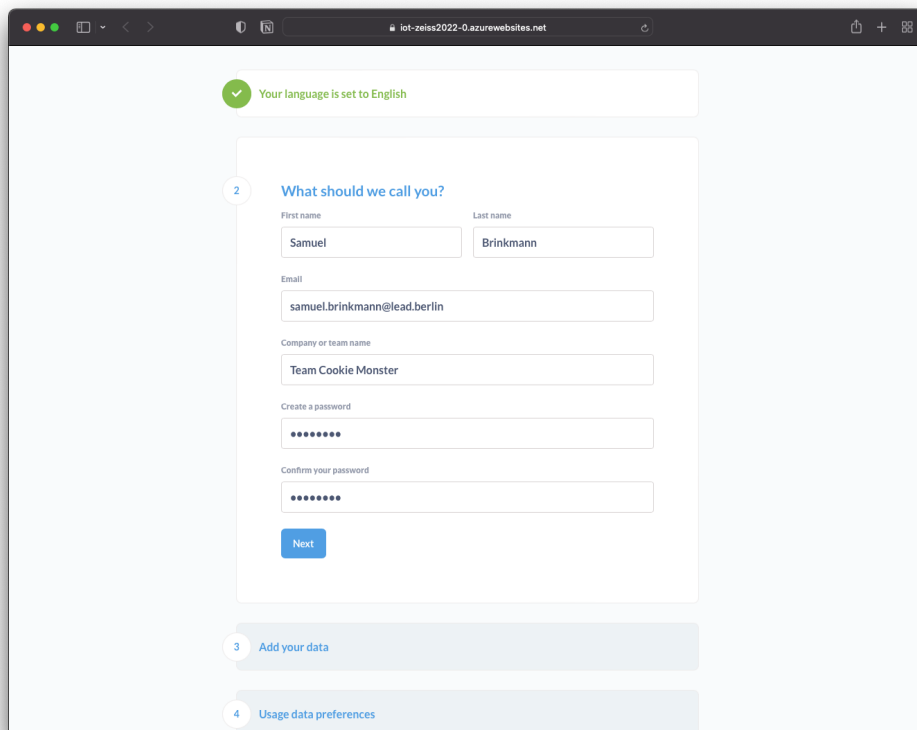

database name: iot_db_10

Step 2: Select the language you want to use and click “next”

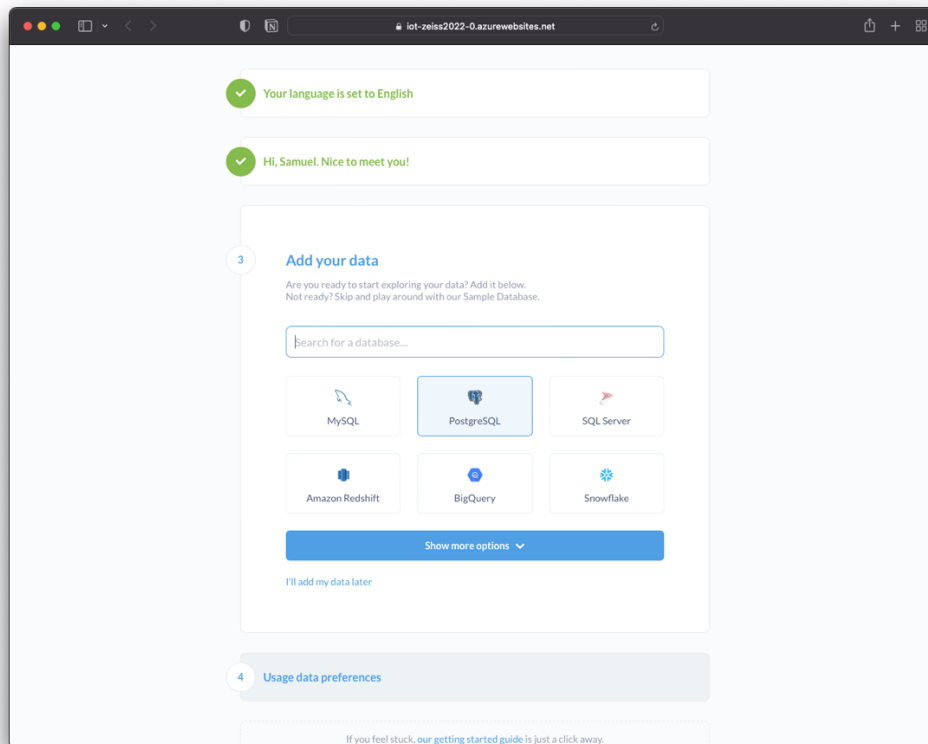

The screenshot shows a web browser window with the URL `iot-zeiss2022-0.azurewebsites.net`. The page displays a language selection interface. At the top, a progress bar indicates four steps: 1. What's your preferred language? (active), 2. What should we call you?, 3. Add your data, and 4. Usage data preferences. The first step contains a list of languages: Bulgarian, Catalan, Chinese, Chinese (Hong Kong SAR China), Chinese (Taiwan), Czech, Dutch, English (highlighted in blue), and French. A blue 'Next' button is located below the list.

Step 3: Fill the text fields with your “credentials” and click “next”

The screenshot shows the same web browser window, now at the second step of the registration process. A green checkmark and the message 'Your language is set to English' are displayed at the top. The progress bar shows step 2 as active. The form for 'What should we call you?' includes fields for First name (filled with 'Samuel'), Last name (filled with 'Brinkmann'), Email (filled with 'samuel.brinkmann@lead.berlin'), Company or team name (filled with 'Team Cookie Monster'), Create a password (filled with '*****'), and Confirm your password (filled with '*****'). A blue 'Next' button is at the bottom of the form.

Step 4: Select PostgreSQL as database type

Step 5: Fill the text fields with the information:

Display name: zeiss-database

Host: `iot-zeiss-2504.postgres.database.azure.com`

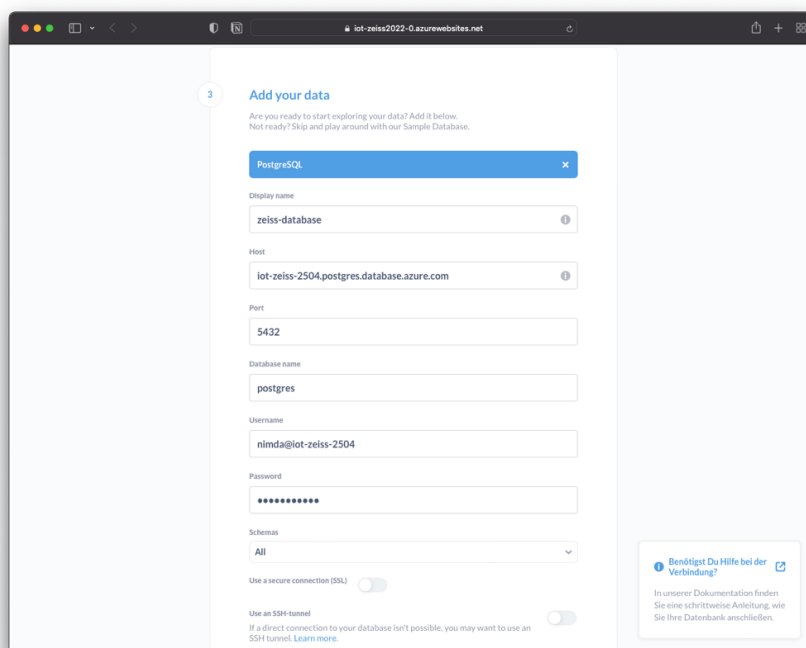

Port: 5432

Database name: `iot_db_XX` where XX is your groupe number (e.g. Group 1: `iot_db_01`)

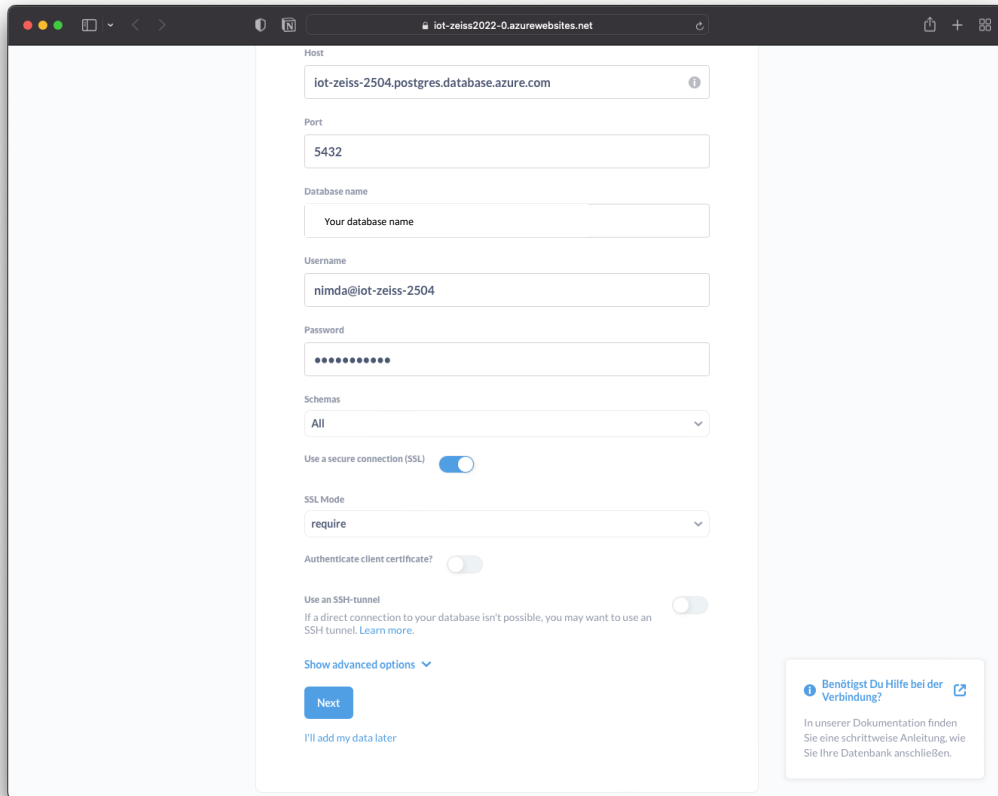

Username: `nimda@iot-zeiss-2504`

Password: given by the facilitators

Follow step 6 before clicking “next”

Step 6: Activate “Use a secure connection (SSL)” and click “next”

Host:

Port:

Database name:

Username:

Password:

Schemas:

Use a secure connection (SSL): ☒

SSL Mode:

Authenticate client certificate? ☐

Use an SSH-tunnel: ☐

If a direct connection to your database isn't possible, you may want to use an SSH tunnel. [Learn more.](#)

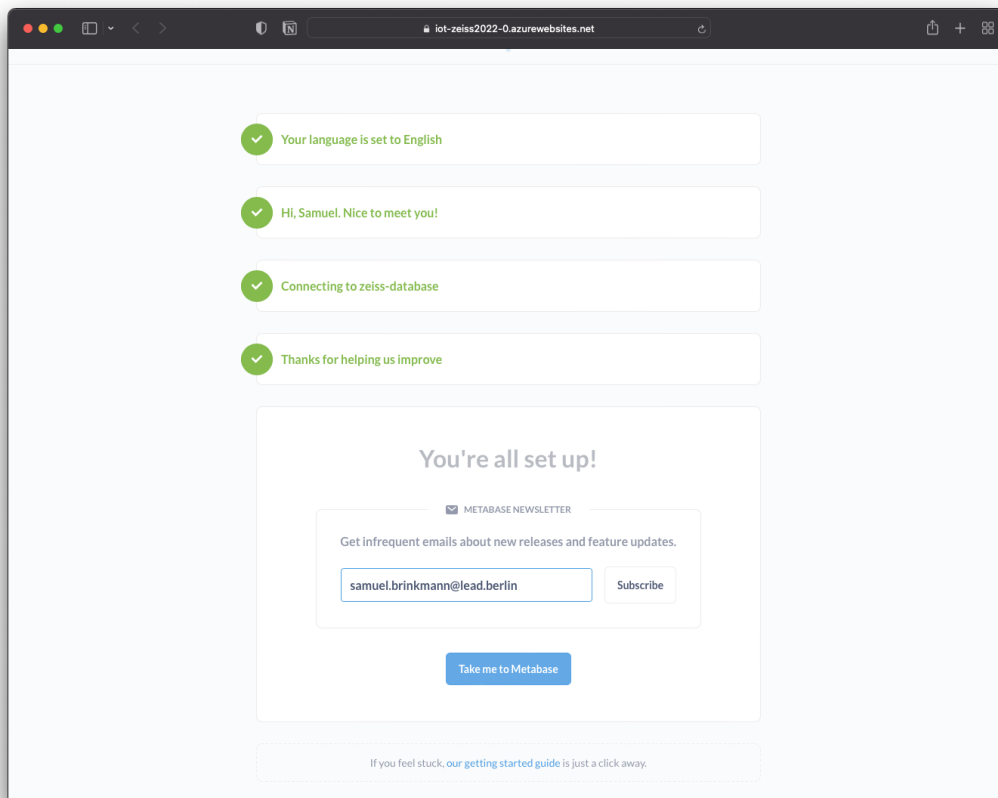

Show advanced options ☐

Benötigst Du Hilfe bei der Verbindung?
In unserer Dokumentation finden Sie eine schrittweise Anleitung, wie Sie Ihre Datenbank anschließen.

Step 7: Click “Take me to MetaBase”

✓ Your language is set to English

✓ Hi, Samuel. Nice to meet you!

✓ Connecting to zeiss-database

✓ Thanks for helping us improve

You're all set up!

How to connect to your DB:

Step 8: In the left side bar (open it with button in the top left corner), you will find “Browse data”. There select “zeiss-database”

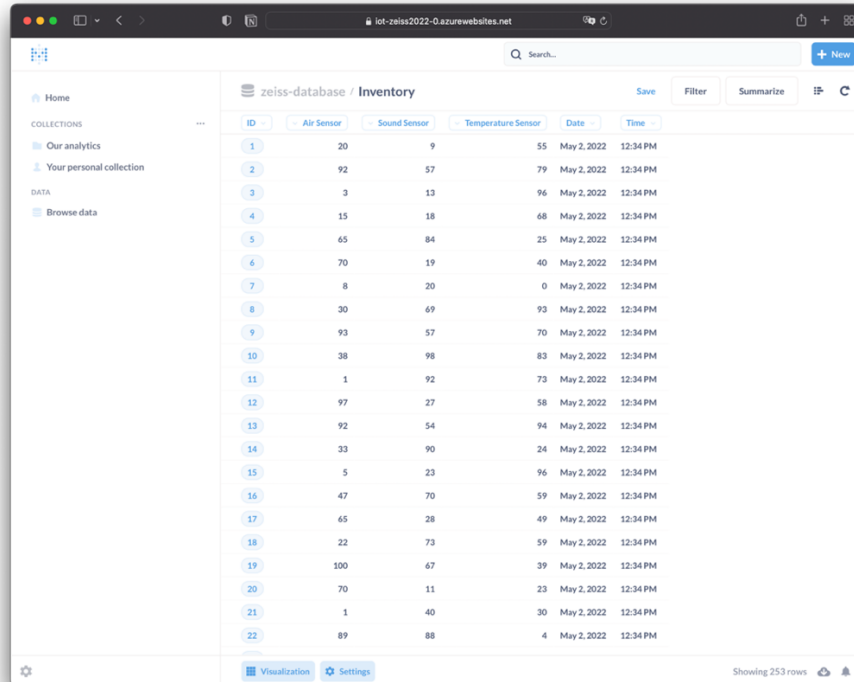

Step 9: Select your table

How to create charts/dashboards:

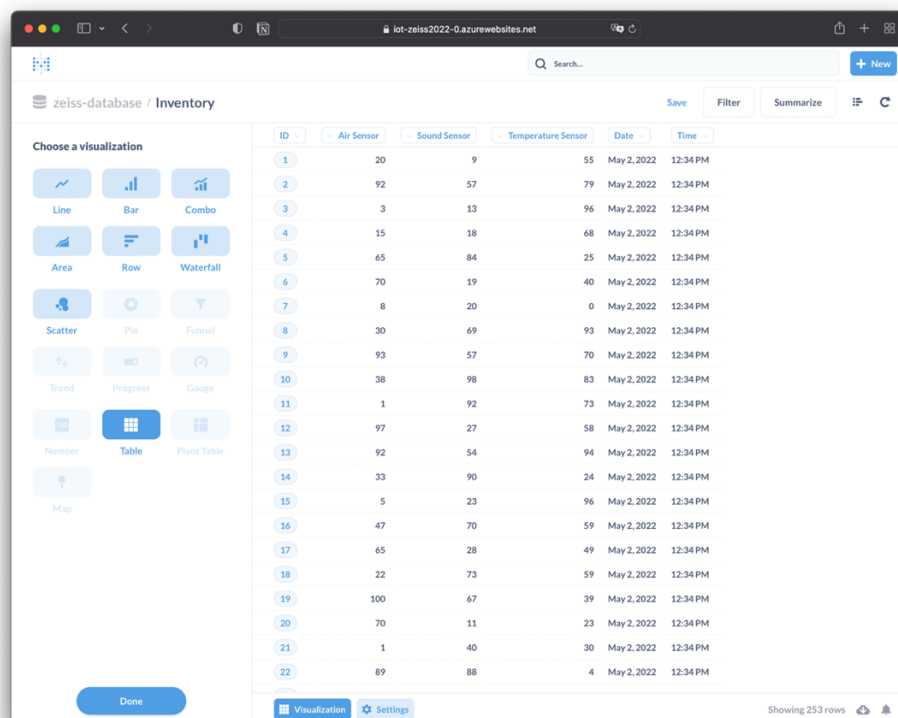

Step 10: Create a visualization of your data with the “visualization” button below your table

ID	Air Sensor	Sound Sensor	Temperature Sensor	Date	Time
1	20	9	55	May 2, 2022	12:34 PM
2	92	57	79	May 2, 2022	12:34 PM
3	3	13	96	May 2, 2022	12:34 PM
4	15	18	68	May 2, 2022	12:34 PM
5	65	84	25	May 2, 2022	12:34 PM
6	70	19	40	May 2, 2022	12:34 PM
7	8	20	0	May 2, 2022	12:34 PM
8	30	69	93	May 2, 2022	12:34 PM
9	93	57	70	May 2, 2022	12:34 PM
10	38	98	83	May 2, 2022	12:34 PM
11	1	92	73	May 2, 2022	12:34 PM
12	97	27	58	May 2, 2022	12:34 PM
13	92	54	94	May 2, 2022	12:34 PM
14	33	90	24	May 2, 2022	12:34 PM
15	5	23	96	May 2, 2022	12:34 PM
16	47	70	59	May 2, 2022	12:34 PM
17	65	28	49	May 2, 2022	12:34 PM
18	22	73	59	May 2, 2022	12:34 PM
19	100	67	39	May 2, 2022	12:34 PM
20	70	11	23	May 2, 2022	12:34 PM
21	1	40	30	May 2, 2022	12:34 PM
22	89	88	4	May 2, 2022	12:34 PM

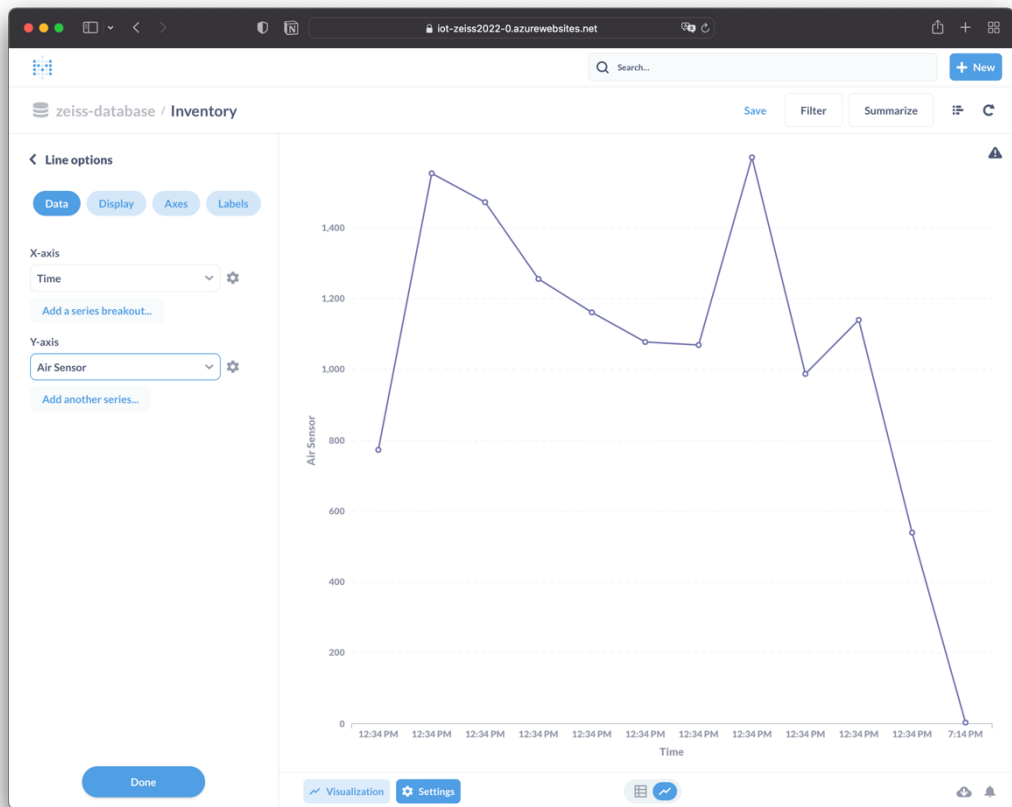

HINT: If you cannot see your data, please tell your team members to close the database connection in their Jupyter Notebooks.

Step 11: Select the type of chart you want (e.g. Line)

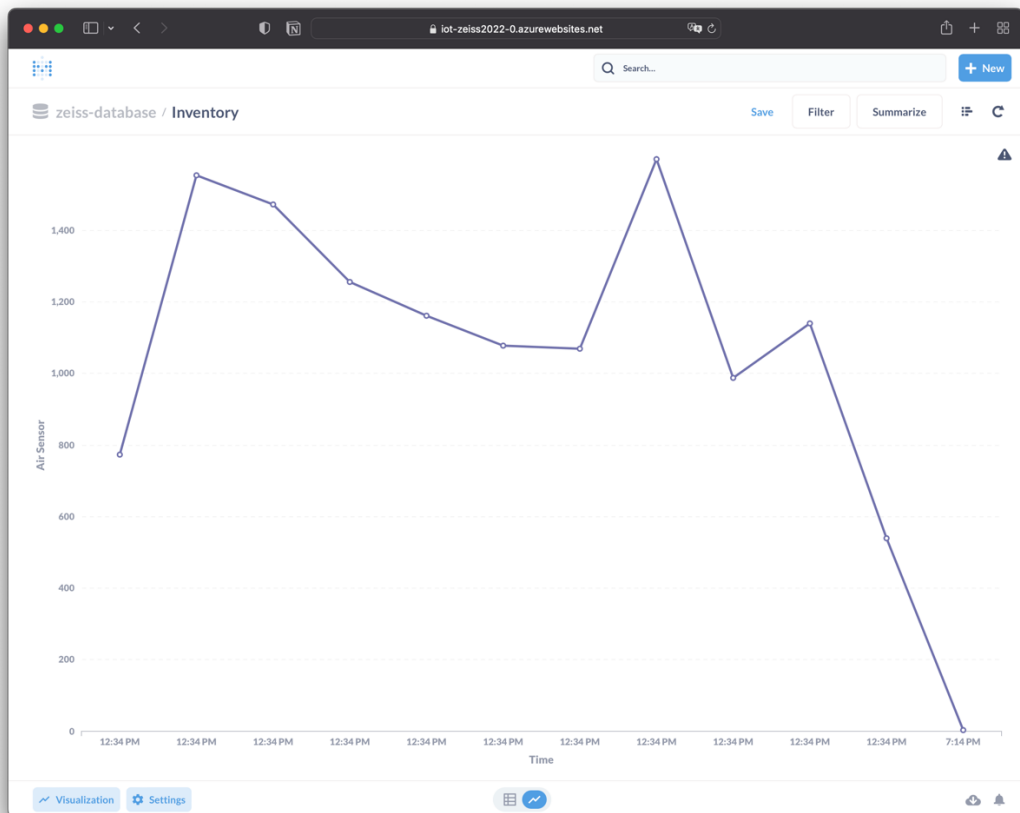

ID	Air Sensor	Sound Sensor	Temperature Sensor	Date	Time
1	20	9	55	May 2, 2022	12:34 PM
2	92	57	79	May 2, 2022	12:34 PM
3	3	13	96	May 2, 2022	12:34 PM
4	15	18	68	May 2, 2022	12:34 PM
5	65	84	25	May 2, 2022	12:34 PM
6	70	19	40	May 2, 2022	12:34 PM
7	8	20	0	May 2, 2022	12:34 PM
8	30	69	93	May 2, 2022	12:34 PM
9	93	57	70	May 2, 2022	12:34 PM
10	38	98	83	May 2, 2022	12:34 PM
11	1	92	73	May 2, 2022	12:34 PM
12	97	27	58	May 2, 2022	12:34 PM
13	92	54	94	May 2, 2022	12:34 PM
14	33	90	24	May 2, 2022	12:34 PM
15	5	23	96	May 2, 2022	12:34 PM
16	47	70	59	May 2, 2022	12:34 PM
17	65	28	49	May 2, 2022	12:34 PM
18	22	73	59	May 2, 2022	12:34 PM
19	100	67	39	May 2, 2022	12:34 PM
20	70	11	23	May 2, 2022	12:34 PM
21	1	40	30	May 2, 2022	12:34 PM
22	89	88	4	May 2, 2022	12:34 PM

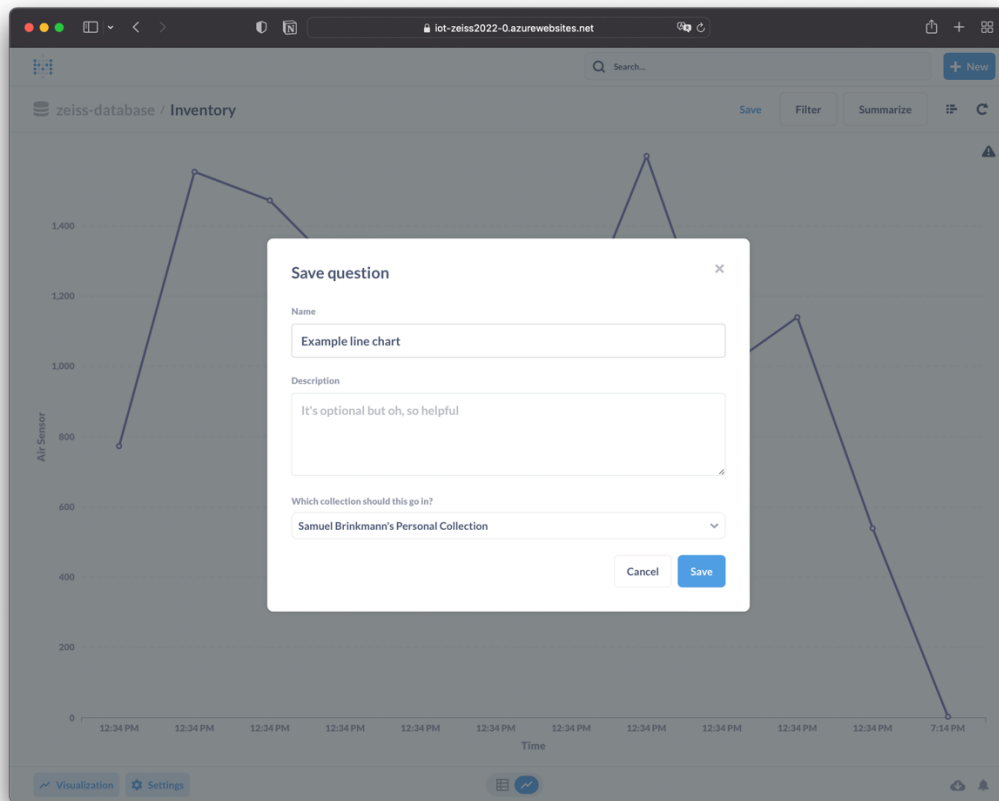

Step 12: Define the last parameters for your chart (e.g. X-axis, Y-axis, Colors, ...) and click “Done”

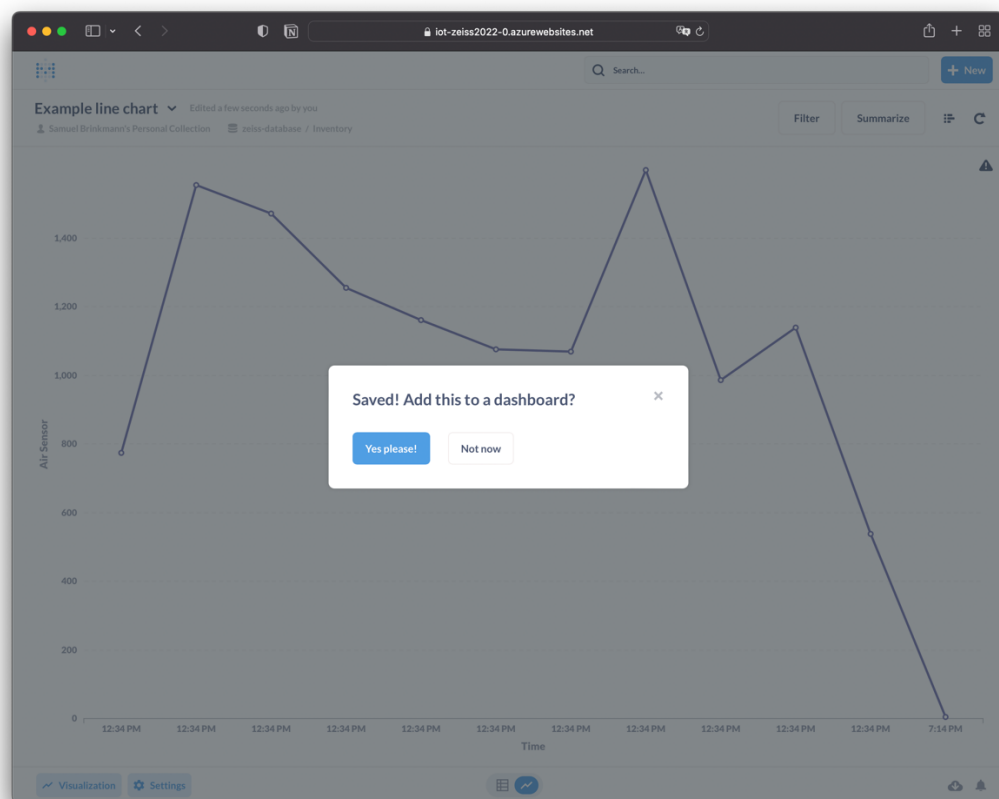

Step 13: Click “save” in the top-right corner to save your chart

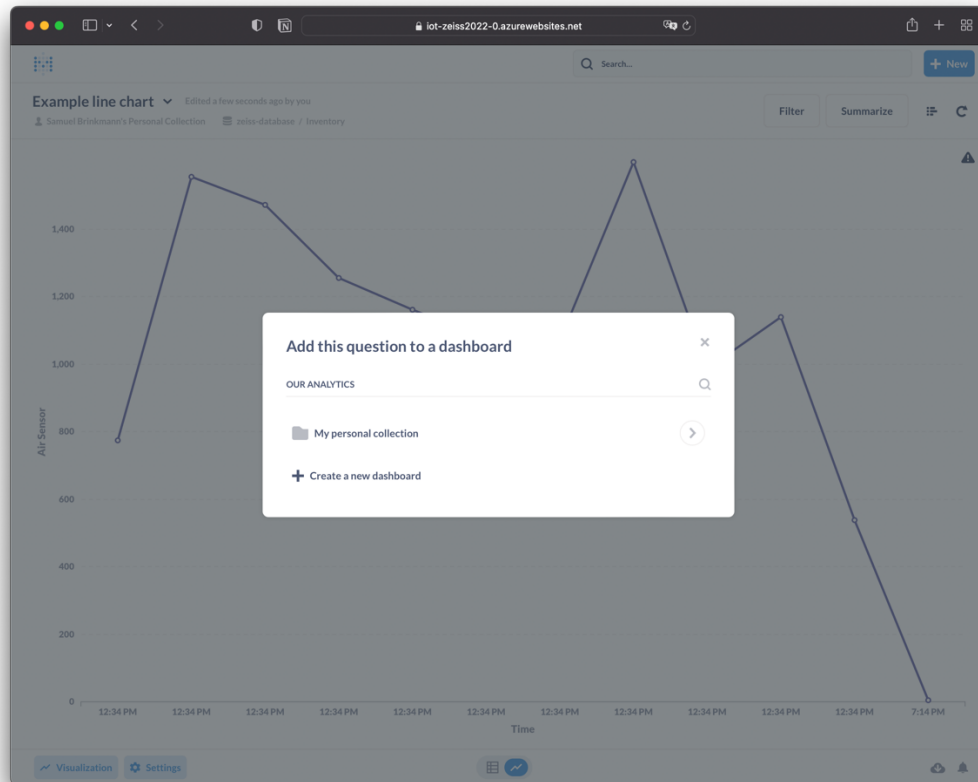

Step 14: Name your chart and select your “personal collection” as location to save your chart

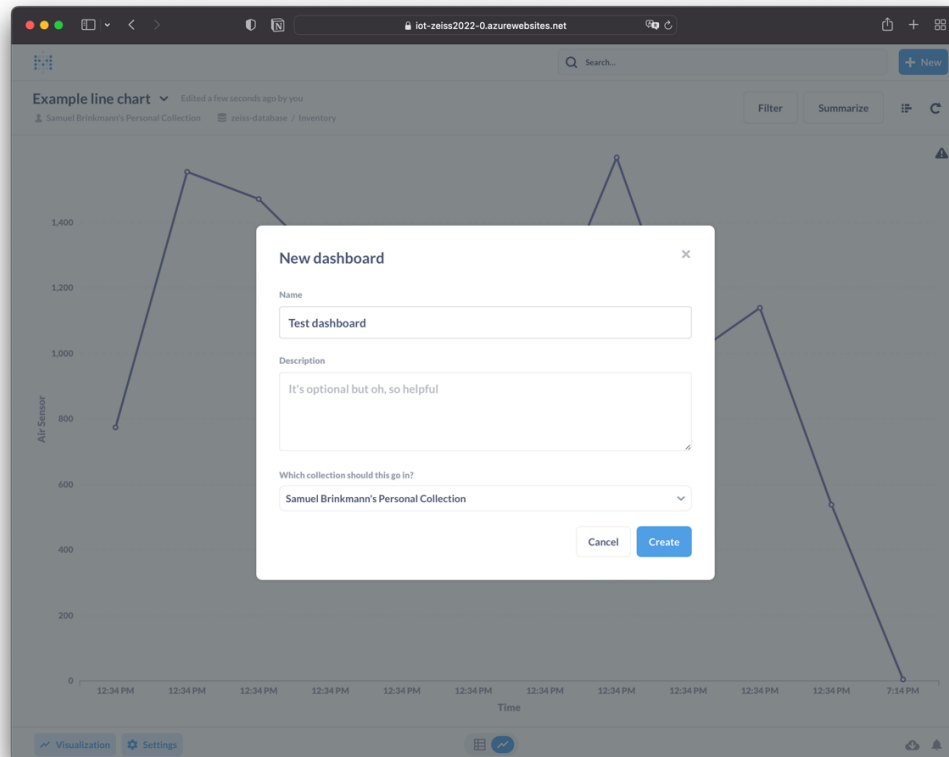

Step 15: Select “Yes please!” to put your chart into a dashboard

Step 16: Select an already created dashboard or create one in your “personal collection” with the “Create a new dashboard” button

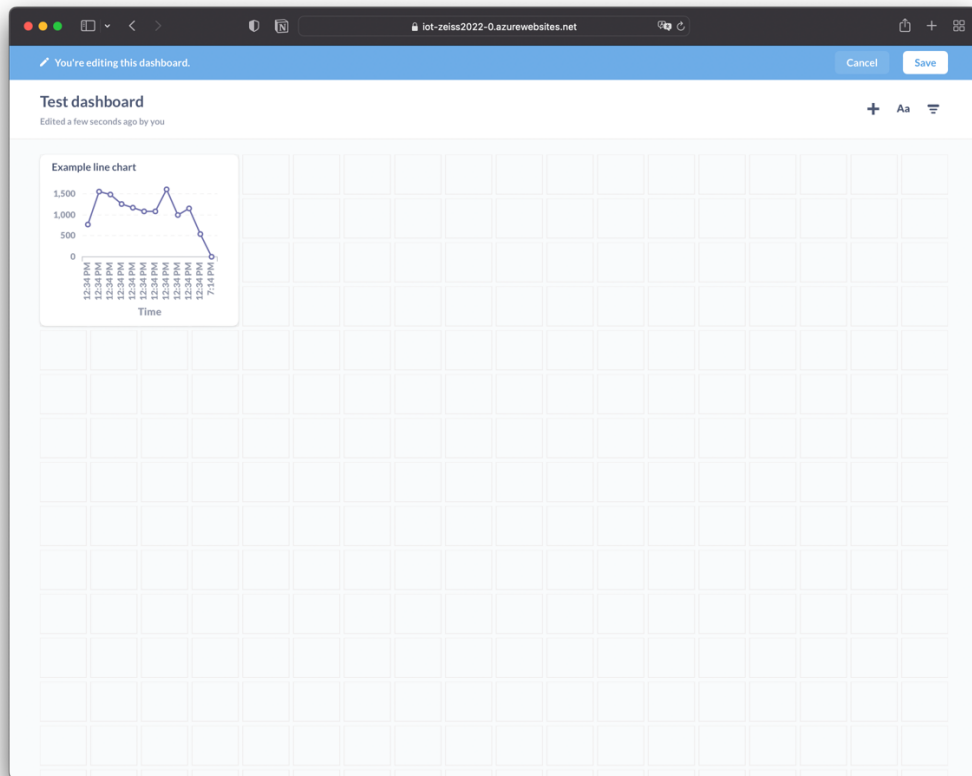

Step 17: If you create a new dashboard, name it and check that your “personal collection” is selected as location. Then click “Create”

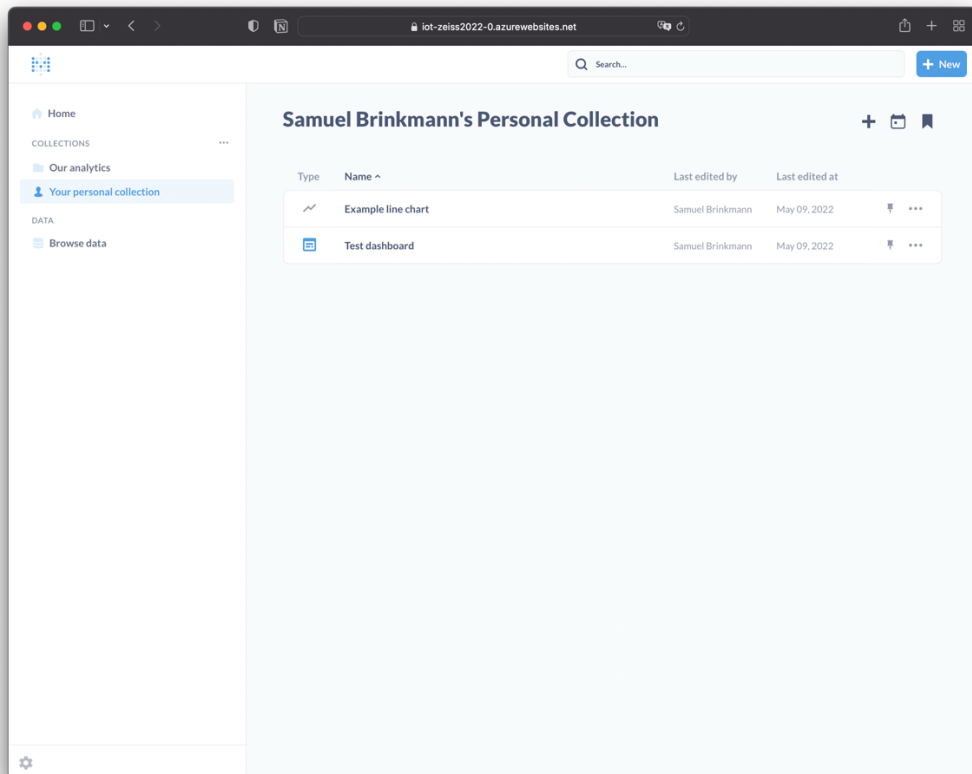

The screenshot shows the MetaBase interface with a line chart titled "Example line chart". A modal titled "New dashboard" is open, showing a form to create a new dashboard. The form includes a "Name" field with the value "Test dashboard", a "Description" field with the value "It's optional but oh, so helpful", and a dropdown menu for "Which collection should this go in?" with the value "Samuel Brinkmann's Personal Collection". The "Create" button is visible.

Step 18: You can now edit your dashboard (and do not forget to save it) or add more charts

Step 19: You can find your charts and dashboards in the section “personal collection” in the left-sidebar

The screenshot shows the MetaBase interface for "Samuel Brinkmann's Personal Collection". The left sidebar contains a navigation menu with "Home", "COLLECTIONS", "Our analytics", "Your personal collection" (highlighted), and "DATA". The main area displays a table of items in the personal collection.
